

Prep Sheet for Cockroach Treatments

- 1. If steps are not complete, we will not be able to properly treat your residence and your pest problem may continue.
2. Remove all items (food products, dishes, pots and pans, coffee maker, etc.) from cupboards, drawers, and counter tops, cover well with sheets, blankets, or plastic. Open food should be placed in the refrigerator or sealed in plastic bag and put in bins away from treatment area.
3. Place all toys and items used by small children in a sealed bag or bin away from treatment area.
4. Move refrigerator, stove and if possible, dishwasher out from wall at least 3-4ft so technician can gain access.
5. Bathroom-Remove all items from medicine cabinets, drawers, underneath sink and all items in shower, put in a sealed bag or bin place away from treatment area.
6. Pets: Pets must be removed from residence for 2-4 hours. If fish are present and cannot be removed, cover with plastic or heavy blanket and turn off air pump, seal tank in such a way that no chemical can contaminate the water supply. Remove all pet toys, food and water, place in sealed container or bags away from treatment area.
7. Occupants and pets must be out of home, building or unit for 2 hours after treatment. The residence should be aired out before re-entry. Upon return to the unit, clean all countertops and areas where food will come in contact.
8. Cleanliness is the best way to help control roaches, ants and other pests, keep floor and counter clean and free of food products. Bathrooms should also be clean and free of clutter. Do not let garbage set around and deep floor free of piles of clothes, towels, empty boxes, and newspapers.

Homeowner/Tenant must clean up dead roaches that are found after treatment takes place. Product is oil based and can leave a slight film. Essential Pest Control will not clean up dead roaches.

Essential Pest Control will not be held liable for any damage to personal items, resulting from treating harborage areas.
